

INNOVATIVE IDEAS
EXCEPTIONAL DESIGN
UNMATCHED CLIENT SERVICE

DLZ Corporation is an award-winning, full-service organization, which has provided complete project management, surveying, construction administration, engineering and architectural design services for nearly 100 years. In 2016, DLZ was named Design Firm of the Year by Engineering News-Record (ENR) Midwest. In addition, DLZ is consistently ranked as one of ENR's **Top 150 U.S. Design Firms, a Top 100 Pure Design Firm, Top 50 Program Management Firm, Top 100 Construction Management for Fee Firm; and a Top 50 Trenchless Design Technology Firm**. DLZ has also been recognized by Roads & Bridges magazine as a **Top "Go-To" Design Firm** for road and highway, storm water, and mass transit design.

Our mission is to build on our reputation for excellence by becoming the preferred architectural, engineering, and environmental firm. We focus on meeting and exceeding our clients' expectations and are known for our competence, integrity, and contributions to the people and communities we service and in which we live.

DLZ Corporation has a rewarding opportunity for an **Environmental Project Manager** in **Lansing or Southeast Michigan**.

DUTIES & RESPONSIBILITIES:

- Oversee environmental efforts and provide guidance as necessary to ensure quality, safety, schedule, and budget of assigned projects.
- Review quality, accuracy, and completeness of assigned projects in accordance with applicable governmental and industry standards.
- Work with Department and Division Managers to prepare quarterly projections, invoicing and closeout for the department.
- Monitor contractual commitments and confirm work is being performed according to the client's instructions.
- Technical Report preparation and review
- Direct the activities of all personnel reporting to him/her on assigned projects.
- Maintain environmental design, reporting, and production standards and procedures.
- Make client contact and maintain working relationships at all levels.
- Become a member of, and work to be actively involved in civic and professional activities, societies and organizations.

JOB REQUIREMENTS

- Bachelor or Masters of Geology, relevant Engineering or Environmental Degree.
- Registered Professional Engineer, if applicable.
- 2 to 3 years relevant field experience and 1 to 2 years project management experience.
- Strong technical writing and verbal communication skills.
- Experience in a variety of project types, scale and complexity; following project from conception through completion.
- OSHA 40-Hours HAZWOPER training.
- Ability to perform field work as needed, complying with all applicable safety codes and requirements.
- Experience conducting soil vapor, soil, surface water, and groundwater investigations.
- Experience developing Conceptual Site Models, Feasibility Studies, and Pilot Studies.
- Experience with remedial design, design documents, system construction and oversight, and operations and maintenance.
- Experience with soil vapor investigations and mitigation.

PREFERRED EXPERIENCE:

- Experience with Michigan Public Act 451, Part 201 and Part 213.
- Experience with Brownfield Redevelopment grants, building demolitions, site due care, and Michigan Public Act 381 workplans.
- Experience with Real Estate Due Diligence and Michigan Baseline Environmental Assessments.
- Experience with Per- and Polyfluoroalkyl Substances (PFAS).
- OSHA Construction Safety training.
- Experience with State of Michigan environmental regulations.
- Experience working in the Midwest and the State of Michigan.
- Experience working with local governmental agencies.
