

# Fibertec Extractions Laboratory Technician

## Do YOU:

- Thrive in a fast-paced work environment?
- View yourself as flexible, self-motivated, positive, and enthusiastic?
- Have the proven ability to listen, talk, and assist customers and coworkers in a professional and composed manner?

If **YOU** replied “yes” to the above, please consider joining our team!

\*\*\*\*\*

As our Environmental Laboratory Assistant, you will help Laboratory Analysts analyze the pollution in soil, water, and air samples. Every day, you will perform routine laboratory functions in an accurate manner. You will extract samples and take measurements with laboratory scales and volumetric flasks, including precise measurements of small volumes.

## In a typical day you may:

- Use your attention to detail and ability to multi-task while maintaining concentration
- Wash glassware used during the prep process
- Move 4 liter jugs from one work bench to another
- Prepare analytical samples and standards
- Handle acids and bases
- Work as part of a great team as well as perform your own tasks

## Requirements from YOU:

- Recent basic chemistry coursework or knowledge may come in handy.
- Able to effectively read, understand and communicate information, as well as find application and value from new knowledge
- Able to maintain a high level of accuracy and clarity in reviewing documents and entering information into a database
- Communicate with clients regarding requests
- Excellent multi-tasking and organizational skills to handle competing priorities and deadlines
- Provide communications regarding sample information to the laboratory departments
- Able to work in an open office environment with numerous interruptions
- Must have a valid driver’s license with a clear driving record
- Able to push/pull, as well as lift and carry up to 50 pounds
- Punctual and reliable attendance
- Team player with a positive “can do” attitude, who helps support coworkers
- Ideal candidates will reside within a 40 minute commute time to our Holt Office

- Must have authorization to work in the U.S. indefinitely without restriction or sponsorship. Fibertec will not now or in the future provide sponsorship for employment visa status for this position.

**What's in it for YOU:**

- Grow your career with training and development opportunities
- Casual work environment – yes, you may wear jeans to work every day
- Competitive pay
- Comprehensive benefit package which includes health, dental, disability, and life insurance; paid holidays, vacation and sick time; and a 401(k) plan with employer matching

**About us:**

Fibertec, established in 1987, is a diversified, Michigan-based environmental service company that offers sampling and analytical services to its clients from three offices, employing a total of approximately 60 people. The Holt, Michigan office provides environmental laboratory services to assist clients in complying with discharge permits and assesses samples for the presence of contaminants in soil, water, and air taken from known and suspected contaminated properties. Additionally, our analyses help determine whether contaminants have spread to surrounding properties and provide data on the effectiveness of cleanup programs. Fibertec is a drug-free environment, as well as EOE and ADA Compliant.

Persons of color and LGBTQ persons are encouraged to apply. We are an equal opportunity employer and do not discriminate on the basis of race, age, sex, gender identity, gender expression, national origin, sexual orientation, or disability in its procedures and policies.
