

Environmental Labs Analyst and Lab Technicians

Develop your career in the environmental industry!

Fibertec Environmental Services, Inc. has additional openings for Lab Analysts and Lab Technicians in our Holt, Michigan office. These full-time positions offer competitive pay, excellent growth potential with opportunities for training and development to advance your career. Additionally, we offer a comprehensive benefit package which includes health, dental, disability, and life insurance; 9 paid holidays; vacation and sick time; and a 401(k) plan with generous employer matching.

Major Duties:

Highly motivated candidates with prior experience in a laboratory would be ideal. The selected individuals will be self-motivated and self-directed, yet work as part of a team to provide our clients with high quality analytical testing of waters, soils/solids, and whole air samples. We are hiring for our Organics and Inorganics departments.

Job Requirements:

- Bachelor of Science in Chemistry is preferred.
- Experience in performing laboratory analyses, data verification, and data validation is preferred.
- Possess strong problem solving capabilities, including pattern recognition.
- Handle multiple tasks with a high degree of accuracy in a fast-paced environment.
- Knowledge of safe laboratory practices, including the proper procedures in handling chemicals and unknown environmental samples.
- Competency with computer software.
- Ability to take direction, work with minimal supervision once trained, and collaborate with others in a team environment.
- Ideally, Lab Analysts for our Organics Department will have experience with GC/MS or similar instrumentation. EPA Methods 8270 and 8082A experience preferred.
- Experience with ICP/MS and/or Ion Chromatography is desirable for our Inorganics Department.

Additional Information:

- Candidates must have authorization to work in the U.S. indefinitely without restriction or sponsorship. Fibertec will not now or in the future provide sponsorship for employment visa status for these positions.
- Ideal candidates will reside within a 40 minute commute time to our Holt office.
- Your application for this position does not guarantee that you will be contacted by Fibertec management for further consideration. Only those applicants interviewed will be notified of the results.
- Fibertec management reserves the right to close this posting prior to its original end date once a sufficient number of resumes have been received.

About Our Company:

Fibertec is a diversified, Michigan-based environmental service company that offers sampling and analytical services to its clients from four offices, employing a total of approximately 70 people. The Holt, Michigan office provides environmental laboratory services to assist clients in complying with discharge permits and assesses samples for the presence of contaminants in soil, water, and air taken from known and suspected contaminated properties. Additionally, our analyses help determine whether contaminants have spread to surrounding properties and provide data on the effectiveness of cleanup programs. EOE, ADA Compliant.
