

PFAS Analyst

ORGANIZATIONAL BACKGROUND

Founded in 2019, the Metiri Group (www.metirigroup.com) is an emerging, fast growing environmental testing laboratory group. With operations currently in California, Illinois, Michigan, Ohio, Pennsylvania, and Wisconsin, Metiri's objective is to provide full-service environmental laboratory services and solutions with the highest caliber service experience.

Our PFAS business unit is primed for rapid growth and we're looking for a **PFAS Laboratory Analyst** to join our team located at our Holt, Michigan division.

Persons of color and LGBTQ persons are encouraged to apply. We are an equal opportunity employer and do not discriminate on the basis of race, age, sex, gender identity, gender expression, national origin, sexual orientation, or disability in its procedures and policies.

REQUIRED SKILLS/ABILITIES

This is a role for which the ideal candidate needs to hit the ground running. The company operates in a fast-paced environment, and the growth of the business is a strategic objective.

- Experience in performing laboratory analyses, data verification, and data validation is preferred.
- Possess strong problem solving capabilities, including pattern recognition.
- Handle multiple tasks with a high degree of accuracy in a fast-paced environment.
- Knowledge of safe laboratory practices, including the proper procedures in handling chemicals and unknown environmental samples.
- Competency with computer software, preferably LIMS.
- Ability to take direction, work with minimal supervision once trained, and collaborate with others in a team environment.
- Proven work experience as an analytical chemist, including method development/validation.
- In-depth knowledge of LCMSMS, HPLC, and analytical chemistry, with PFAS experience a plus.
- Capable of juggling multiple initiatives.
- A passion to deliver exceptional client services.
- Collaborates and communicates constructively with team members.

EDUCATION/EXPERIENCE

- BS in Chemistry or another related field, required
- Minimum 1 year of experience in analytical chemistry.

- Minimum 1 year of laboratory experience in production environment preferred
- LC-MS/MS: 1 year experience, preferred
