Geologist/Environmental Scientist

-(19000634)

At Golder, we thrive on challenges.

Golder is not just a place to work, it is a promise of a living, dynamic environment where people collaborate, innovate, build enduring relationships, excel, and grow professionally in a strong culture of ownership.

Do you have the desire to learn? The drive to excel and thrive in an engaged, collaborative environment?

Golder is currently seeking a **Geologist/Environmental Scientist** to join our **Detroit, MI** office on a **fulltime** basis.

Primary responsibilities for this position include:

- Work with project teams on environmental projects that involve field work, data evaluation, data management and report preparation.
- Conduct field assignments, such as drilling supervision, borehole logging, ground and surface water sampling, site reconnaissance, geomapping and construction monitoring.
- Project assignments has potential for up to 50% national and international travel.
- Summarize the findings of the field assignments and input data into environmental data management systems and reports.
- Perform office tasks such as geotechnical and environmental data entry, laboratory coordination, historical and regulatory database research, and report preparation.

The successful candidate will have a background in:

- Bachelor's in geology, environmental geology or environmental science, or equivalency and 1-2 years of environmental work experience. Consideration may be given to candidate with a M.S. degree and 1 years of work experience;
- Strong computer skills and experience with industry standard commercial computer software including: Microsoft Office;
- Geologic field skills such as core logging, soil sampling, groundwater sampling, operation and maintenance of field instrumentation;
- Detail oriented with strong analytical skill and a positive attitude as well as the ability to work both independently and on teams;
- Willingness to obtain 40-hour OSHA HAZWOPER health and safety training certification and to work on sites that are potentially impacted by releases of regulated chemicals. Prior completion of 40-hour training preferred;
- Comfortable in remote settings, with a can-do attitude, and a willingness to perform a variety of tasks as needed to complete an assignment and satisfy project demands;
- Relocation is not available for this position.

Your benefits at Golder will include:

- Competitive benefits and remuneration packages
- Option to purchase shares in Golder
- Employee owned structure - own the business, own the result
- Deepen your expertise in a dynamic work environment
- Innovative and collaborative multidisciplinary projects
- On the job training, mentoring and coaching

Renowned for technical excellence, Golder is a leading, global employee-owned engineering and consulting firm with over a half century of successful service to its clients. With over 165 offices in over 40 countries, Golder's 6,500 professionals are driven by a passion to deliver results, offering unique specialized skills to address the ever-evolving challenges that earth, environment and energy present to clients across the infrastructure, mining, oil and gas, manufacturing and power sectors.
