

Staff Scientist (LUST)

Berkley, MI

PM Environmental, Inc. is looking for a Staff Scientist to join our Retail Petroleum Services (LUST) team!

This position consists of office duties with some field duties. Office duties consist of data management, report writing, project management and coordination, and client interaction. Field duties include site visits, subcontractor management, data collection and evaluation, and sampling of soil, water, and/or soil gas/vapor.

Desired Qualifications:

- Two (2) to five (5) years of Leaking Underground Storage Tank experience (LUST/Part 213)
- Bachelor's degree in Geology, Environmental Science, Engineering, or a related field
- Knowledge of Michigan's environmental regulations
- Mix of office experience (Initial Assessment Reports, Final Assessment Reports, Closure Reports, Project & Budget Management, etc) and field experience (Subcontractor oversight, soil/GW sampling, etc)
- Excellent communication, analytical, organization and time management skills are critical to success in this position
- Must be detail-oriented and a team player
- A valid driver's license is required
- Ability to work in various settings and climates
- Ability to work flexible hours and be available for travel
