

AIPG Michigan Section Announces the

13th

Environmental Risk Management Workshop Data-Driven Decision Making

June 11-12, 2024

SPONSOR INVITATION

The American Institute of Professional Geologists (AIPG) Michigan Section is extending an invitation to sponsors for the 2024 Environmental Risk Management Workshop to be held **June 11-12, 2024**, at the **Ralph A. MacMullen Conference Center** in Roscommon, Michigan.

The 13th in a series of one-of-a-kind training events hosted by the AIPG Michigan Section focuses on providing quality technical information and case studies. These environmental workshops bring together a wide range of topic expertise from consulting, regulatory, academic, and owner perspectives. We focus on practical application and case studies for environmental professionals.

This unique workshop forum creates excellent opportunities for

Networking

Knowledge Sharing

Collaborative Problem-Solving

Innovative Product Introduction

Field Demonstrations

Leadership and Break Sponsorships are available at various levels!

We would also like to showcase your technology, equipment, and field techniques following dinner on Tuesday evening before the evening social mixer.

In 2024, we are focusing on the pivotal role of data in decision-making processes related to environmental contamination, public

safety threats, remediation strategies, and site closures. High-quality data collection, rigorous quality assurance/quality control (QA/QC), and effective management of big data sets are imperative in today's digital age. As technology advances, we have more tools and resources at our disposal than ever before.

The AIPG workshop encourages discussions on innovations in data collection, interpretation, and management. We aim to explore strategic planning for data collection and evaluation, combining foundational knowledge with the latest innovations to tackle environmental issues with fresh perspectives.

Abstracts have been submitted in the following key areas:

- **Contaminant Characteristics**
- **Emerging Contaminants**
- **Tools for Evaluating Contaminant Fate and Transport**
- **Data Collection and Analysis**
- **Geologic Conditions and Complex Environments**
- **Remediation**
- **Closure**

Submit your field demonstration descriptions to:

pearsons@michigan.gov.

Field demonstration presentation descriptions will be accepted until April 1, 2024.

Sponsors may register and pay online at our Eventbrite website or contact Sara Pearson at pearsons@michigan.gov for alternative payment instructions.

Sponsorship Signup Deadline: May 15, 2024
